Pilgrimage Integrative Healing Process

The Pilgrimage Integrative Healing Process seeks to unify body, mind and spirit by giving comfort to the major joints and chakras through above-the-body energy work and gentle, non-intrusive touch. The atmosphere is prayerful and invites God's healing energy to be with you.

Working With the Healing/Wellness Team

When you choose to participate in this process, you will meet with three Healing/Wellness Team members who have been trained to bring relaxation and comfort to unify your body, mind and spirit, bringing you an amazing feeling of wellness.

Healing Wellness Session

The session itself takes about one half hour. Prior to your session, a Healing/Wellness Team member will contact you to review the process, answer your questions, and discuss your needs. All information will remain confidential, and you will be kept in our prayers.
